SCHOOL BUILDING

MORNING ASSEMBLY

MESSAGE FROM PRINCIPAL

At **Darshan Academy**, we believe education is about nurturing confident, compassionate, and responsible individuals. Our core philosophy is simple: student development is human development.

We focus equally on five dimensions of growth:

- Physical & Mental: Building active bodies, curiosity, and critical thinking.
- Moral & Social: Teaching right from wrong, cooperation, and mutual respect.
- Emotional: Fostering self-worth, empathy, and healthy relationships.

This holistic learning extends far beyond classrooms. Through sports, creative pursuits, and value-based community activities, we cultivate essential 21st Century Skills like adaptability, collaboration, and problem-solving. By providing diverse co-curricular, cultural, and leadership opportunities, we help children discover their strengths and navigate a changing world with wisdom.

Ultimately, education is measured by who a child becomes—physically healthy, mentally strong, morally grounded, and socially responsible. “Education is complete when knowledge becomes wisdom, skills become character, and learning becomes a way of life.”

Dr. Thomas K. V.
Principal - Darshan Academy, Devlali
